**THE NIH ROADMAP: OPPORTUNITIES
FOR INTER-DISCIPLINARY TRAINING
AND BEHAVIORAL Research**

Tuesday June 20, 2006
8:00 am – 9:30 am

Timothy P. Condon, Ph.D., Chair

Timothy P. Condon, Ph.D. **The NIH Roadmap: Progress and Impact on NIDA**
Deputy Director, NIDA

Lisa Onken, Ph.D. **Interdisciplinary Methods and Technology Initiative**
Chief, Behavioral and
Integrative Treatment Branch, NIDA

Allison Chausmer, Ph.D. **Interdisciplinary Research Training Opportunities**
Behavioral and Cognitive
Science Research Branch, NIDA

Multiple scientific opportunities exist within the NIH Roadmap for basic, translational and clinical drug abuse and addiction researchers. This forum will highlight NIDA's active participation in the Roadmap initiatives and will identify scientific opportunities in interdisciplinary training and behavioral research that support the development of novel research training and education programs which provide integrated interdisciplinary training for undergraduates, predoctoral and/or postdoctoral trainees, or independent faculty-level investigators.
